

# The Future of Visual Asset Management.

Experience the power of AI-powered photo organization, search, and sharing

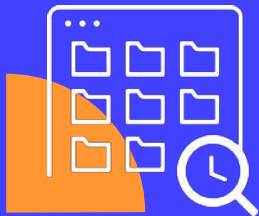

*"At a large event with 100 VIPs, finding and sharing photos takes 15 minutes per person—totaling 25 hours, or more than three workdays of lost productivity."*

# The Post-Event Photo Nightmare.

---

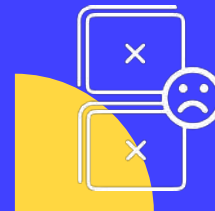

## Time Consuming

Hours wasted finding and distributing photos.

## Complex Workflow

A cumbersome process of locating, downloading, uploading, and sharing links.

## Impatient Stakeholders

Attendees, press, and media are left waiting for photos, impacting their experience and potentially diminishing your brand's image.

# Event Photo Sharing in Seconds with Gump.

---

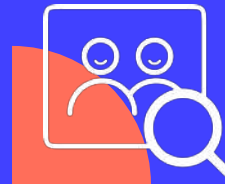

## Find and Share in 5 Seconds

300x faster with Gump's AI Face Finder, with 99.5% accuracy.

## Two Clicks to Share

Simplify your workflow with a two-click sharing process. No more complicated uploads or downloads.

## Self-Service Photo Search

Empower attendees, media, and partners to find their own photos instantly.

# Trusted by Global Leaders, Loved by Millions.

# Enhanced Privacy

## Two Modes for Peace of Mind

1

### Full Private Mode

Guests access their photos by uploading a selfie.

2

### Partial Private Mode

Unique share links with selected photos only. Guests cannot navigate back to the full album.

# Table of Comparison.

Feature	Gump	Other Platforms
Face Recognition Accuracy	✓ 99.5% precision even at large events	✗ Lower accuracy at scale
Train Your Own AI Model	✓ Train with your own dataset	✗ Generic, non-trainable models only
Instant VIP Photo Link Creation	✓ Self-service, no admin bottleneck	✗ Manual selection and sending
Branded Photo Frame Downloads	✓ Fully customizable frames	✗ Limited or no branding options
AI Culling & Editing	✓ Automatic best-shot selection	✗ Manual or outsourced editing
Corporate Account & Access Control	✓ Centralized team asset management	✗ Typically photographer-managed
Post-Event Guest Feedback	✓ Integrated, 80%+ completion rates	✗ No built-in feedback tools
Data Privacy & NDA Compliance	✓ Enterprise-grade, GDPR-ready, NDA available	✗ Varies; few offer formal NDAs
