Who We Are - iMBrace

Enterprise AI Collaboration Operating System

that connects humans, processes, documents, chats & data — from handwritten forms to videos and enterprise systems — turning every interaction into governed, intelligent workflows that drive real business outcomes.

Human in the Loop

AI guided by people, not replacing them.

Governance & Control

Transparent, auditable, and safe—delivering intelligent, governed workflows.

3Cs: Contextual, Confident, Compliant

AI you can trust for real business.
