Alluvia.ai

Tender Evaluation Tool

Your AI Knowledge Agent that Makes Your Life Easier.

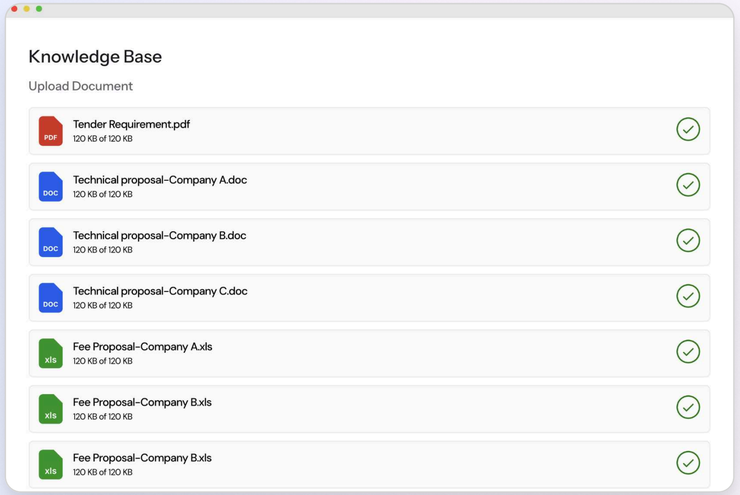

Introduction: What is Tender Evaluation Tool?

- Automates the **tender evaluation process** for government departments and assessment panels, streamlining technical assessment and price scoring.
- Instantly **analyzes bidder proposals against tender specifications and marking schemes** upon upload.
- Provides a consolidated view for panel members to **compare bids against evaluation criteria side-by-side**.
- Allows officers to **review AI-suggested scores, verify findings, and finalize marks** directly in a secure platform.

Key Features: How it Works?

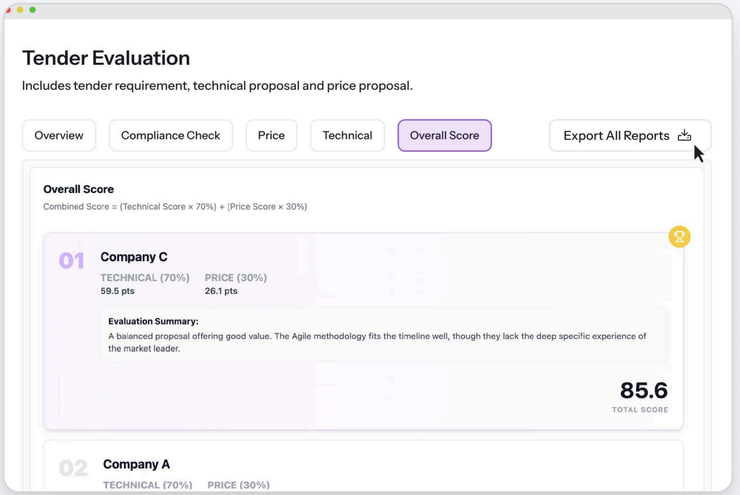

Step 1: Upload & Extract

- Upload Tender Specifications and multiple Bidder Proposals.
- Alluvia instantly extracts key data points and maps content to the evaluation matrix.

Step 2: Analyze & Score

- AI automatically calculates price scores and checks mandatory requirements.
- Generates AI-suggested technical scores with reason included for the panel's review.

Step 3: Review & Report

- Assessment panels review suggestions, finalize marking, and validate findings.
- System auto-generates the final ranking and the full Evaluation Report.

Benefits: Why Choose Us?

Reduces Manual Administrative Workload

- Eliminates manual checking of mandatory requirements and complex price score calculations.

Enhances Accuracy and Compliance

- Flags potential non-compliance risks and ensures consistent application of the marking scheme.

Accelerates Evaluation Cycle

- Drastically reduces the time from tender evaluation to contract award by automating data mapping.

Empowers Evidence-Based Decisions

- Equips assessment panels with instant, side-by-side data comparisons, ensuring every award is backed by concrete facts.
