Knowledge Hub

AI Office Assistant Hub - Knowledge Hub

Key Features

AI-Powered Knowledge Hub Solution Capabilities

RAG Technology

Find exact information in seconds with intelligent search

Traceable AI

Every answer shows AI reasoning and source citations

Significantly Reduces Hallucinations

Much higher trust and factual accuracy

Info Search with human readable context

Instant query resolution with citations and human-like reasoning & language

On-Premise

Your sensitive data never leaves your infrastructure

Always Up To Date — No Retraining Needed

Update a document and knowledge is instantly current

Benefits & Value

Transform Your Workflow and Task Experience

- ✓ Save **70%+** of manual work hours significantly
- ✓ Minimize human error in data processing
- ✓ **100%** Traceability for every answer shows AI reasoning and document search reference
- ✓ On-premises application with 100% data security

Key Metrics

TIME SAVED

70%+

Traceability of AI reasoning

100%

DATA SECURITY

100%

AI Agentic Workflow

- AI-powered search
- Seconds to find answers
- Full source transparency
- Data stays on-premise

Upload Documents

Upload documents to add them to your knowledge base. You can upload multiple files at once.

Drag & drop files or click to select
.pdf, .txt, .md, .docx up to 20MB each (max 50 files)
