# **Gaze Winding Up Check**

**Achieve Your Business Goals**

# Pain Points of Traditional Monitoring

## Human Error

Manual list comparison is slow and susceptible to human error, often resulting in missed winding-up events.

## Time-Consuming

Manual verification of Gazette, court judgments, and news updates is extremely time-consuming, diverting valuable resources from core business activities.

## High Operational Costs

Manual name-matching across multilingual variations, abbreviations, and aliases drives up labor and verification costs.

## Error-Prone

Processing time and resource allocation are major concerns when handling large volumes of documents, slowing down business operations.

# Gaze Winding Up Check- Core functions

**Intelligent scheduled  
scanning of official  
Gazette records**

**Fuzzy Logic Entity  
Matching (handles  
name variations)**

**AI Risk Classification**

**Full Support Report**

**OCR Multi-Language  
Data Extraction**

**10+ Years Historical  
Database for  
Retrospective Search**

# How It Works

## Continuous HK Data Crawling

Intelligent scheduled scanning of official Gazette records

## Intelligent Entity Matching

99% accuracy with Fuzzy Logic

## AI Risk Classification

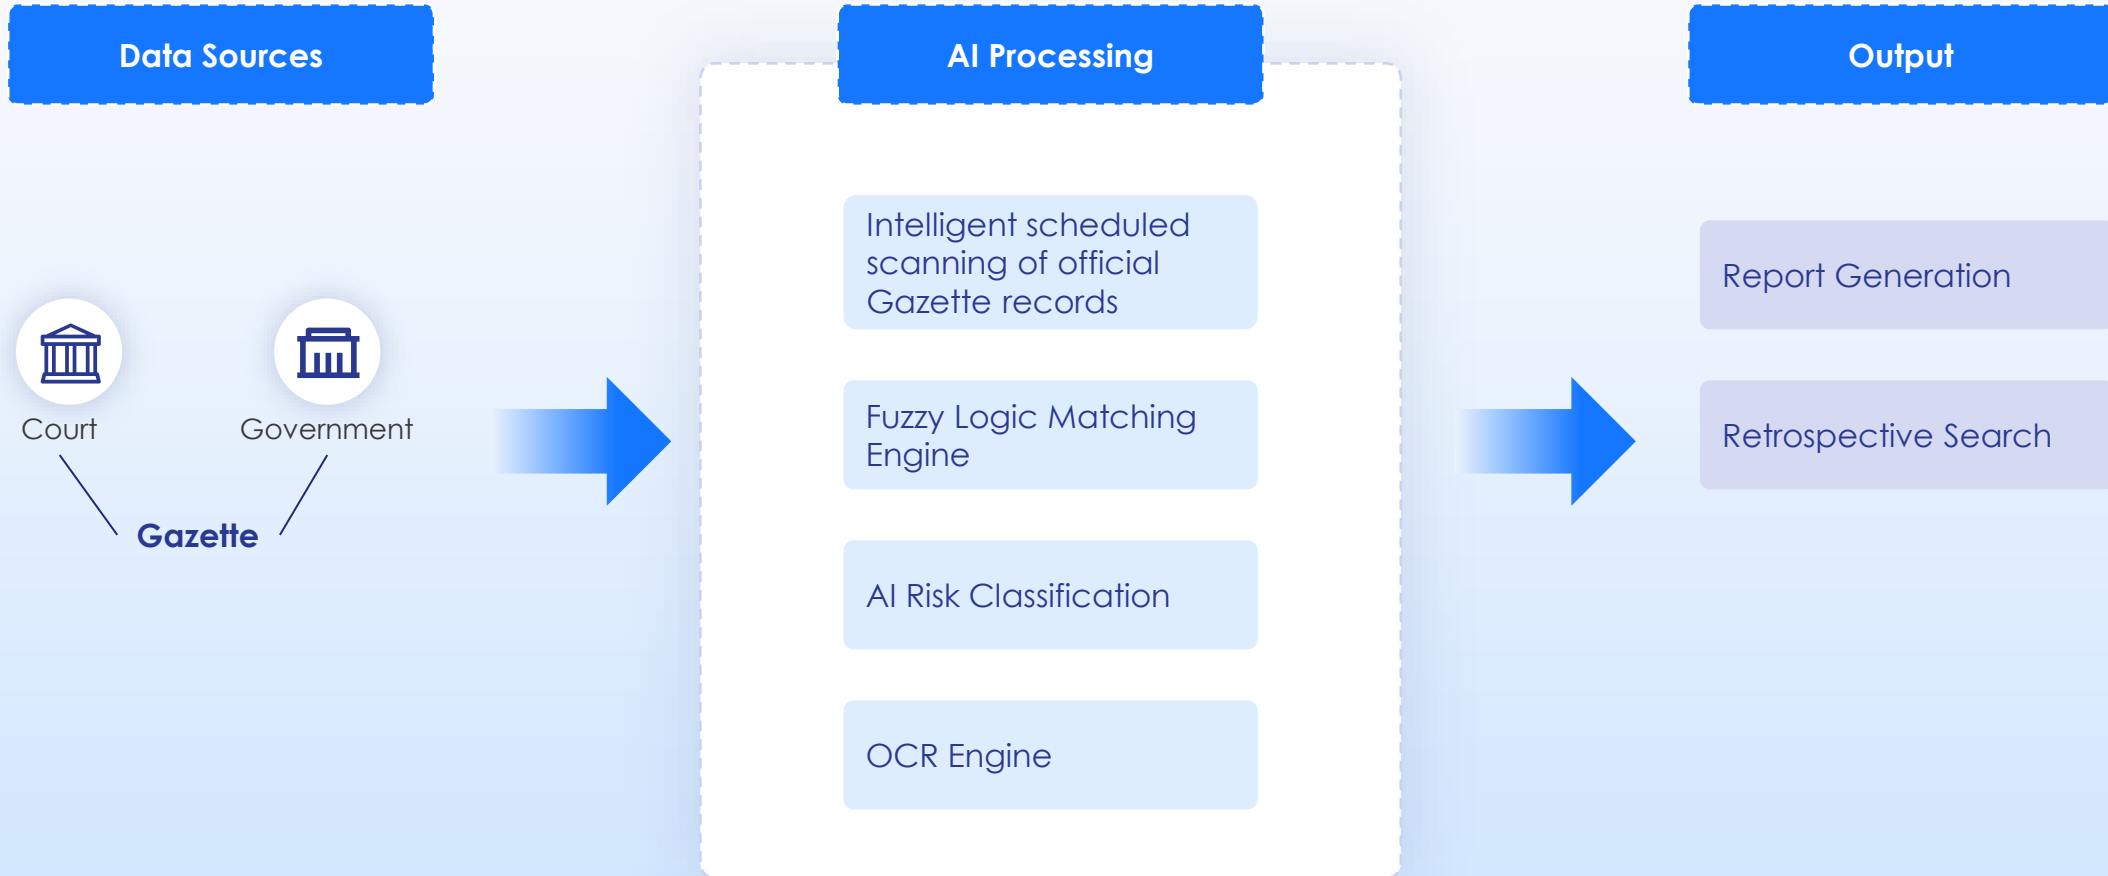

Automatic priority ranking

## Support Report

Support full report winding-up

# Gaze Winding Up Check-Architecture

- Advanced fuzzy logic achieves an extremely low false alarm rate
- Transforms unstructured data into structured intelligence
- Fully autonomous – No manual monitoring required

# Gaze Winding Up Check-Advantages

## Time & Labor Saving

Replace manual checks with alert-only workflow

## Risk Reduction

Early detection prevents major default losses

## High Accuracy

Advanced OCR & Data Extraction

## Proactive Protection

Support full report winding-up
