

ENTERPRISE DATA • CONNECTED

Metis Platform

Next-Generation Enterprise AI & Data
Intelligence Platform

COMPANY & PRODUCT INTRODUCTION REPORT

May 2026 | metis.info

Company Overview and Value Proposition

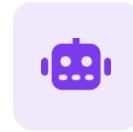

METIS DATA INTELLIGENCE LAYER

Metis

ENTERPRISE DATA • CONNECTED

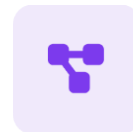

A Next Generation Enterprise Intelligence Platform powered by AI, purpose-built to connect, automate, and orchestrate business data ecosystems.

 metis.info

Autonomous Intelligent Operations

AI-driven systems that manage complex workflows 24/7 with minimal human intervention.

Comprehensive System Integration

Seamless connectivity across disparate enterprise platforms to ensure data fluidity.

Enterprise-Grade Security

Robust protection frameworks with flexible infrastructure options.

ON-PREMISE

CLOUD

TIME

24/7

AUTONOMOUS
OPERATION

Strategic Impact: How would sub-second response times across 10 million daily autonomous decisions redefine your operational scalability?

Next-Generation Business Intelligence Vision

METIS DATA INTELLIGENCE LAYER

The Metis platform deploys **autonomous systems** that work 24/7 across the business ecosystem. These intelligent systems don't just automate tasks—they **understand context** and continuously improve performance without constant human oversight.

Contextual Awareness

Goes beyond simple triggers to understand the nuance, intent, and relationship between enterprise data points.

Autonomous Action

Deploys systems that make decisions and execute workflows independently, ensuring 24/7 operational continuity.

Continuous Improvement

Self-optimizing loops that learn from outcomes, refining accuracy and efficiency with every single operation.

Ecosystem Integration

Orchestrates intelligence across all connected systems, breaking silos to create a unified data fabric.

 *Strategic Impact: How would moving from manual oversight to 24/7 autonomous intelligence redefine your competitive advantage?*

Core AI Capabilities

DECISION MAKING AND LEARNING

Autonomous Decision Making

AI systems that analyze market conditions, customer behavior, and risk factors to make intelligent business decisions in real-time without human intervention.

- ✓ Real-time market volatility analysis and response
- ✓ Predictive customer behavior modeling
- ♥ Autonomous risk factor mitigation protocols

Strategic Impact: How would sub-second decision cycles redefine your competitive edge in a volatile market?

Intelligent Learning

Self-improving AI that learns from every interaction, continuously optimizing operations, risk assessment, and customer service responses.

- ❓ Continuous operational workflow optimization
- i Dynamic refinement of risk assessment logic
- 🔔 Iterative customer service response learning

Value Realization: Metis systems don't just execute; they evolve with your data to ensure long-term operational excellence.

Core AI Capabilities: Risk and Predictive Analytics

METIS DATA INTELLIGENCE LAYER

Autonomous Risk Management

- ✓ **24/7 Monitoring:** Continuous autonomous oversight of all enterprise business operations.
- ✓ **Anomaly Detection:** Predicting issues and detecting subtle deviations in real-time.
- ✓ **Active Adjustment:** Automatically adjusting risk exposure based on live data streams.

99.9% ACCURACY RATE

Advanced Predictive Analytics

- ✓ **Pattern Forecasting:** AI-driven modeling of complex business and market trends.
- ✓ **Growth Identification:** Pinpointing emerging opportunities for strategic expansion.
- ✓ **Actionable Insights:** Transforming raw data into concrete strategic planning advice.

DATA-DRIVEN STRATEGY

High-Velocity Real-Time Processing

- ✓ **Massive Orchestration:** Handling millions of operations and approvals simultaneously.
- ✓ **Sub-Second Response:** Lightning-fast processing for high-frequency environments.
- ✓ **Automated Compliance:** Instant verification and integrity checks on every transaction.

50MS RESPONSE TIME

Agentic Ecosystem

METIS INTELLIGENT AGENT ARCHITECTURE

OCR Agent

- >98% accuracy on printed text
- >94% accuracy on handwritten text
- English, Traditional & Simplified Chinese
- 1 page/sec throughput
- Fine-tuned for data extraction & handwritten adjustments

1 PAGE / SEC

File Writer Agent

- Works side-by-side with OCR & other agents
- Generates formatted files from templates
- Supports multi-sheet, formulas & structured layouts
- Auto-maps extracted data to correct fields

TEMPLATE-DRIVEN

RM Copilot Agent

- Pulls from internal databases & Research Agent
- Outputs executive summaries
- Generates predictions & forward-looking insights
- Delivers sentiment analysis for portfolio decisions

AI-POWERED INSIGHTS

Market Intelligence Agent

- Analyzes financial headlines in real time
- Processes financial statistics & market data
- Contextualized against portfolio holdings
- Surfaces actionable market signals

PORTFOLIO-AWARE

RAG Chatbot & Validation Agent

- Role-Based Access Control (RBAC)
- Citations on every response
- Human-in-the-Loop monitoring dashboard
- Automated Validation Agent scores against custom benchmarks

RBAC + HITL

OCR Agent — Use Case & Capabilities

INTELLIGENT DOCUMENT & RECEIPT PROCESSING

INPUT FORMATS Accepts

- PDF
- Image
- Excel
- JSON
- CSV

>98%

Printed Text Accuracy

Typed documents, forms & invoices

>94%

Handwritten Accuracy

Handwritten annotations & adjustments

Global Receipt Capture

Reads receipts from multiple countries & formats automatically

⚡ 1 Page / Second

High-throughput processing for enterprise document volumes. Fine-tuned for data extraction and capturing handwritten adjustments.

Purchasing Receipts

Multi-currency, multiple layouts & languages

Ride Receipts

Digital & printed formats across regions

Other Receipts

Various countries, layouts & tax structures

Language Support:

English

繁體中文

简体中文

And More

OUTPUT FORMATS Delivers

- Text
- CSV
- JSON
- Markdown
- Excel

Captures handwritten adjustments and annotations on any document type with >94% accuracy.

Intelligent Approval and Fraud Prevention

AUTONOMOUS RISK MANAGEMENT & DECISIONING

Intelligent Approval AI

Autonomous evaluation of complex applications and requests with human-level accuracy, processed in seconds rather than days.

200+ DATA POINTS ANALYZED

- ✓ Historical data and behavioral pattern mapping
- ✓ Real-time risk factor and business condition audit
- ✓ Instant autonomous decisioning for high-volume requests

Fraud Prevention AI

Continuous 24/7 monitoring of all transactions using adaptive AI that stays ahead of evolving threat landscapes.

REAL-TIME THREAT DETECTION

- ✓ Behavioral analysis and advanced pattern recognition
- ✓ Automated blocking of suspicious or anomalous activities
- ✓ Self-learning engine optimizes from new fraud vectors

Strategic Optimization and Customer Service AI

BUSINESS TRANSFORMATION & INTELLIGENT ENGAGEMENT

Strategic Optimization AI

- **Market Intelligence:** Continuously analyzes market data, industry trends, and business performance to provide proactive recommendations.
- **Goal Alignment:** Automatically optimizes operations based on specific corporate goals, priorities, and evolving market conditions.

Strategic Impact:

How would real-time operational tuning based on market shifts redefine your competitive advantage this quarter?

Customer Service AI

- **Cognitive Interaction:** Intelligent conversational AI that understands complex context, emotion, and human intent for nuanced resolution.
- **Autonomous Resolution:** Processes requests and resolves issues at scale, with seamless escalation of complex cases to human experts.

Efficiency Metric:

Delivering human-level service quality at 24/7 global scale while reducing average resolution time by up to 60%.

Platform Features: Connection and Orchestration

METIS DATA INTELLIGENCE LAYER

Data Connectivity & Flow

Mapping Engine

Intelligent data mapping with automated field transformation and validation.

Transmission Engine

Reliable transmission across platforms with built-in retry mechanisms.

Monitoring & Alerting

Real-time system health monitoring with proactive issue detection.

Job Management

Automated scheduling, execution, and dependency workflow management.

Multi-Site Correspondence

Seamless coordination and data synchronization across global locations.

Governance & Interface

Enterprise Authentication

Grade security with multi-factor and role-based access control.

Multi-Language Support

Full multilingual localized interfaces for global business operations.

Report/Chart Tools

Advanced visualization tools for high-level data-driven insights.

Low-Code Platform

Rapid customization environment for agile business requirements.

Approval Process

Configurable multi-level authorization workflows and audit trails.

Product Lines and Enterprise Integrations

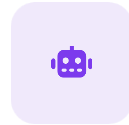

METIS CONNECTIVITY & AUTOMATION ECOSYSTEM

SME SOLUTIONS

SAP Business One

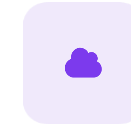

Comprehensive SAP integration designed specifically to empower small and mid-sized enterprises with intelligent data orchestration.

ENTERPRISE AUTOMATION

RPA Automation

Robotic Process Automation capabilities that automate high-volume, repetitive tasks across the entire enterprise ecosystem.

MICROSOFT CLOUD

Dynamics 365

Seamless Microsoft Dynamics 365 connectivity for enterprises seeking unified ERP orchestration and real-time cloud data flows.

***Strategic Impact:** How would unifying your ERP, RPA, and SME data streams into a single AI-orchestrated intelligence layer accelerate your decision-making cycle?*

Strategic Benefits: Efficiency and Flexibility

VALUE REALIZATION & OPERATIONAL EXCELLENCE

Data Centralization

Achieve a single source of truth by unifying fragmented system data into a cohesive intelligence layer.

- ✔ Intelligent Data Mapping & Transformation
- ✔ Automated Transmission & Monitoring
- ✔ Analyzed Result Visualization for Users

UNIFIED INFRASTRUCTURE

Cost Optimization

Significantly reduce operational overhead and software expenditures through the Connect+ model.

- 🏠 Eliminate excessive user license costs
- 🔗 Connect+ high-efficiency operations
- 🤖 Optimized resource allocation via AI

MAXIMIZING ROI

Agile Flexibility

Adapt rapidly to market shifts with customizable tools designed for technical and business users alike.

- 🛠️ Low-Code rapid customization platform
- 📊 Advanced Report & Chart building tools
- 🔄 Dynamic workflow and mapping adjustment

FUTURE-PROOF AGILITY

Deployment Models: Cloud and On-Premise

OPTIONS FOR CLOUD-READY INFRASTRUCTURE WITH 99.9% UPTIME OR SECURE ON-PREMISE DEPLOYMENTS WITH FULL DATA SOVEREIGNTY.

Cloud-Ready Solution

High-availability managed infrastructure designed for rapid scaling and global accessibility.

- ✓ **High Availability SLA**
99.9% uptime with global redundancy and failover systems.
- ✓ **Seamless Updates**
Zero-downtime maintenance and instant access to new AI features.
- ✓ **Auto-Scaling Infrastructure**
Dynamic resource allocation for peak performance during heavy loads.

AGILE & SCALABLE

On-Premise Solution

Maximum control over your data environment with strict security and compliance management.

- ✓ **Full Data Sovereignty**
Complete control over data residency and compliance protocols.
- ✓ **Air-Gapped Deployment**
Support for high-security environments with zero external connectivity.
- ✓ **Enterprise AI Protection**
Local processing of intelligence models within your secure perimeter.

SECURE & COMPLIANT

Certifications & Official Partnerships

TRUST, COMPLIANCE & RECOGNISED EXCELLENCE

INFORMATION SECURITY ISO 27001

Metis is certified to the international standard for **Information Security Management Systems (ISMS)**, demonstrating our commitment to protecting enterprise data assets.

- ✓ End-to-end data security controls
- ✓ Risk assessment & continuous monitoring
- ✓ Confidentiality, integrity & availability assured

 CERTIFIED

AI MANAGEMENT ISO 42001

Metis holds certification under the world's first international standard for **Artificial Intelligence Management Systems (AIMS)**, ensuring responsible and trustworthy AI deployment.

- ✓ Responsible AI governance framework
- ✓ Transparency & explainability in AI decisions
- ✓ Ethical AI development & risk management

 CERTIFIED

OFFICIAL PARTNERSHIP Meta Tech Provider WhatsApp

Metis is an officially recognised **Meta Tech Provider for WhatsApp Business Platform**, enabling enterprise-grade WhatsApp integrations at scale.

- ✓ Utilize WhatsApp Business API
- ✓ Automated messaging & CRM integration
- ✓ Verified for enterprise deployments

OFFICIAL PARTNER

Conclusion and Call to Action

METIS VALUE REALIZATION

Operational Efficiency

Reduce overhead by 30% through autonomous 24/7 decision-making and sub-second processing.

Strategic Intelligence

Convert raw enterprise data into predictive growth insights with self-improving AI learning cycles.

Scalable Connectivity

Seamlessly orchestrate complex workflows across global infrastructures with enterprise-grade security.

Get in Touch with Metis

Take the first step towards enterprise intelligence. Connect with Metis experts to explore how AI-powered orchestration can transform your business.
