On-premises AI Meeting Solution

Meeting Agent Key Features :

Hardware solution available

AI Meeting	Meeting Minutes and Q&A		Intelligent Summary		Extended Custom Mgt.	
	Real-time STT	Voiceprint Recognition	Meeting Chapter Summaries		Voiceprint Mgt.	Audio Transcription
	Enterprise Q&A	Meeting Q&A	To-do Task Generation		Personal Notes	Template Mgt.
			Content Summary		Minutes Edit	History Mgt.
Knowledge Base	Domain Knowledge Mgt.		Agent Interaction		Permission Settings	
	Data	Customer Profiles	Data Analysis	Issue diagnostics	Public Knowledge	Policy Knowledge
	Product Manuals	Chart information	Info Retrieval	Source Positioning	Shared Group Knowledge	
	Company Policies	FAQ	Summarization	Inference	Personal Knowledge	
AI Application	AI Content	Messaging	Expansion	Ad. Content	Sales scripts	Speech drafting
	AI Office	Report generation	Long-text summarization		Deep-reading	AI Question Bank
AI LLM	AI Foundation					
	Topic Segmentation	Document Parsing	Text Vectorization		Automatic Summarization	Semantic Similarity
	Value Assessment	Semantic Parsing	CRF Word Segmentation		Keyword Extraction	Semantic Transformation

Meeting Agent Key Features :

Portable Device Processor and Speakers

CPU	intel i9
Cores/Threads	14 cores 20 Threads
Max Turbo Boost	5.0GHZ
Storage	1TB SSD
Memory (RAM)	64GB
OS	Linux
Dimensions	20cm×20cm×6.5cm
Weight	1.5KG
Expansion Ports	HDMI * 1, DisplayPort * 2, USB3.0 * 4, Ethernet (RJ45) * 2, 3.5mm Audio * 1, 3.5mm Microphone In (MIC) * 1

Quantity	2 units (stackable)
Pickup Range	360°
Coverage Area	5-60m²
Pickup Radius	5m
Connectivity	Bluetooth, USB

Server

Edition	Model	Specification
Standard	STDV1 AI Server supports 4 concurrent users	- CPU: Dual Intel Xeon 6330 Processors (28 Cores / 56 Threads total) - GPU: 2x NVIDIA GeForce RTX 4090 (24GB VRAM each) - Memory (RAM): 128GB - System Drive: 1TB NVMe SSD - Data Drive: 7200 RPM HDD(s) in RAID 5 array, Usable Capacity: 2TB
Flagship	FSV1 AI Server supports 7 concurrent users	- CPU: Dual Intel Xeon 8373C Processors (40 Cores / 80 Threads total) - GPU: 3x NVIDIA GeForce RTX 4090 (24GB VRAM each) - Memory (RAM): 128GB - System Drive: 2TB NVMe SSD - Data Drive: 7200 RPM HDD(s) in RAID 5 array, Usable Capacity: 4TB
Deluxe	DLV1 AI Server supports 10 concurrent users	- CPU: Dual Intel Xeon 8373C Processors (40 Cores / 80 Threads total) - GPU: 4x NVIDIA GeForce RTX 4090 (24GB VRAM each) - Memory (RAM): 256GB - System Drive: 2TB NVMe SSD - Data Drive: 7200 RPM HDD(s) in RAID 5 array, Usable Capacity: 8TB

Successed Case sharing

CIMC

Global Manufacturing Leader, Fortune 500

Challenge:

- 🌐 Cross-continent executive meetings with fragmented note-taking
- ⌚ 3-day average delay logging critical decisions
- 📊 42% leadership time consumed by administrative follow-ups
- ❌ 30%+ action items lost in manual handovers

Solution:

- ✓ AI-generated **structured meeting minutes** (**99% accuracy**)
- ✓ **Auto-sync** of decisions/action items to stakeholders
- ✓ **Customizable templates** for regional compliance

Results:

- ⚡ **80% faster** minute generation
- 🤝 **30% improvement** in cross-team collaboration efficiency
- 💰 **60% reduction** in administrative workload
- ✅ **100% action item accountability** with automated tracking

SPD Bank

Major Financial Institution, Fortune 500

Challenge:

- 🔒 Manual recording of compliance meetings risking data leaks
- ⚠️ 18% average omission rate in risk-control details
- 🕒 72-hour+ delays generating auditable records
- 📁 Inconsistent documentation across 200+ monthly meetings

Solution:

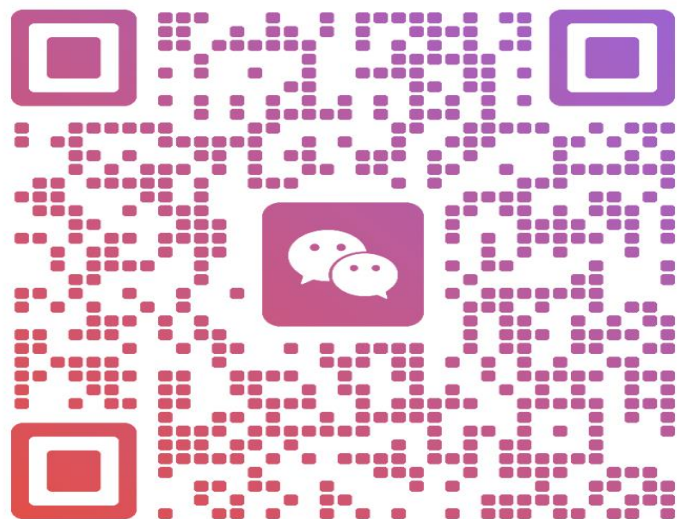

- ✓ **Offline on-premises deployment** with data encryption
- ✓ **AI-powered redaction** of sensitive data
- ✓ **Auto-extraction** of compliance-critical items

Results:

- 🔒 **Zero-data-leakage** security architecture
- ✅ **>97% accuracy** in critical information extraction
- 🕒 **50% shorter** compliance review cycles
- 📁 **35% faster** risk decision-making with audit trails
