Alluvia.ai

Licensing & Application Processing AI
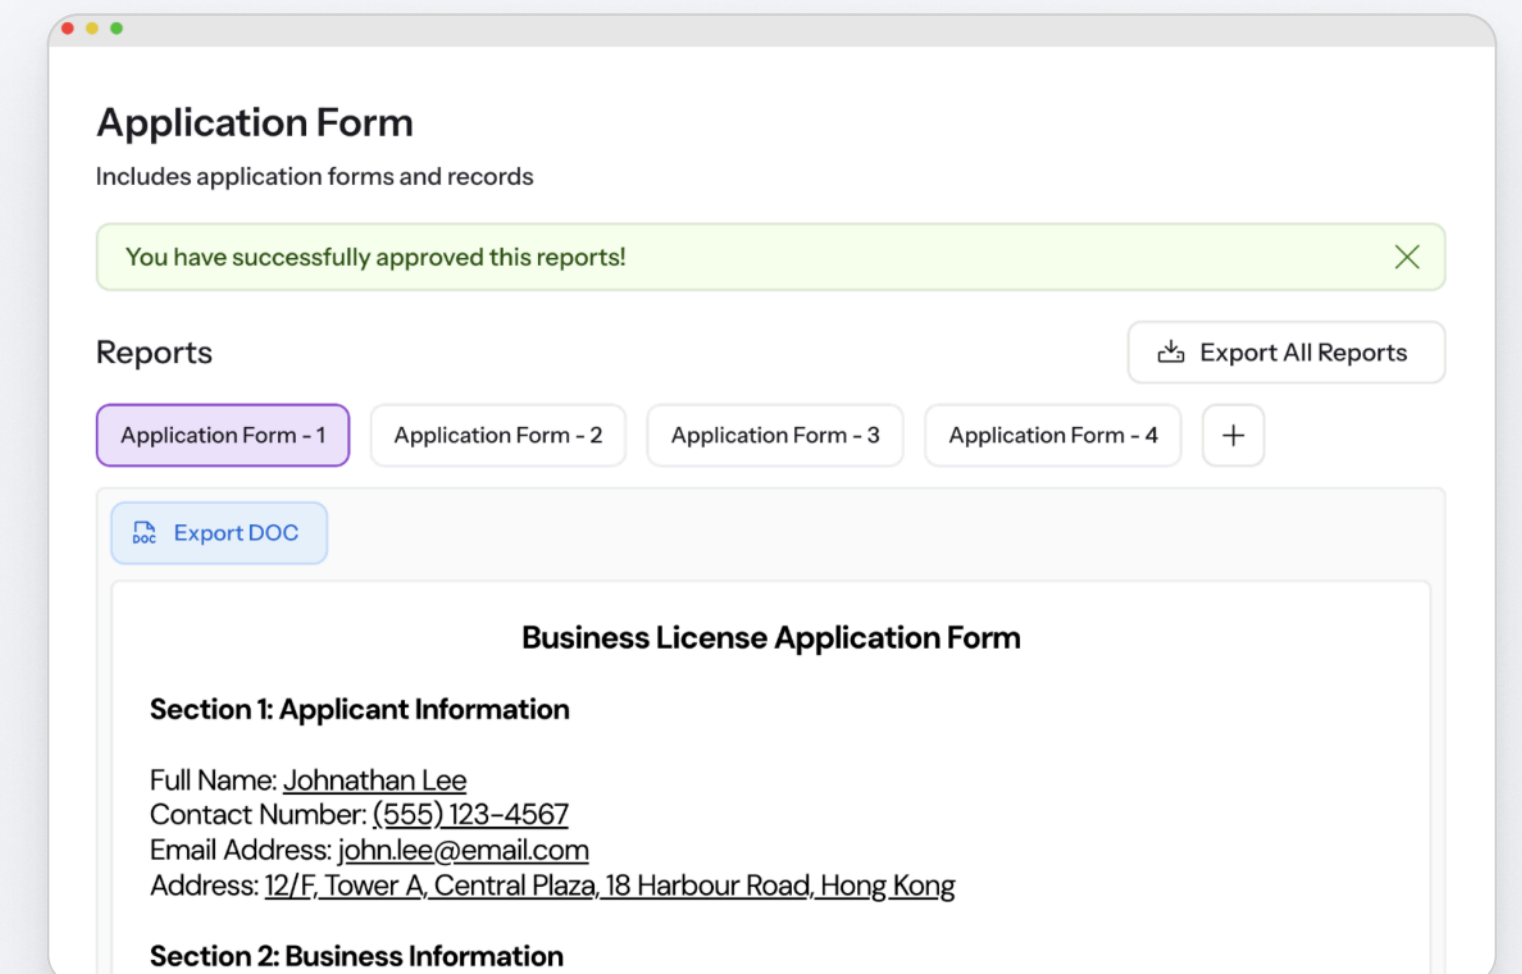

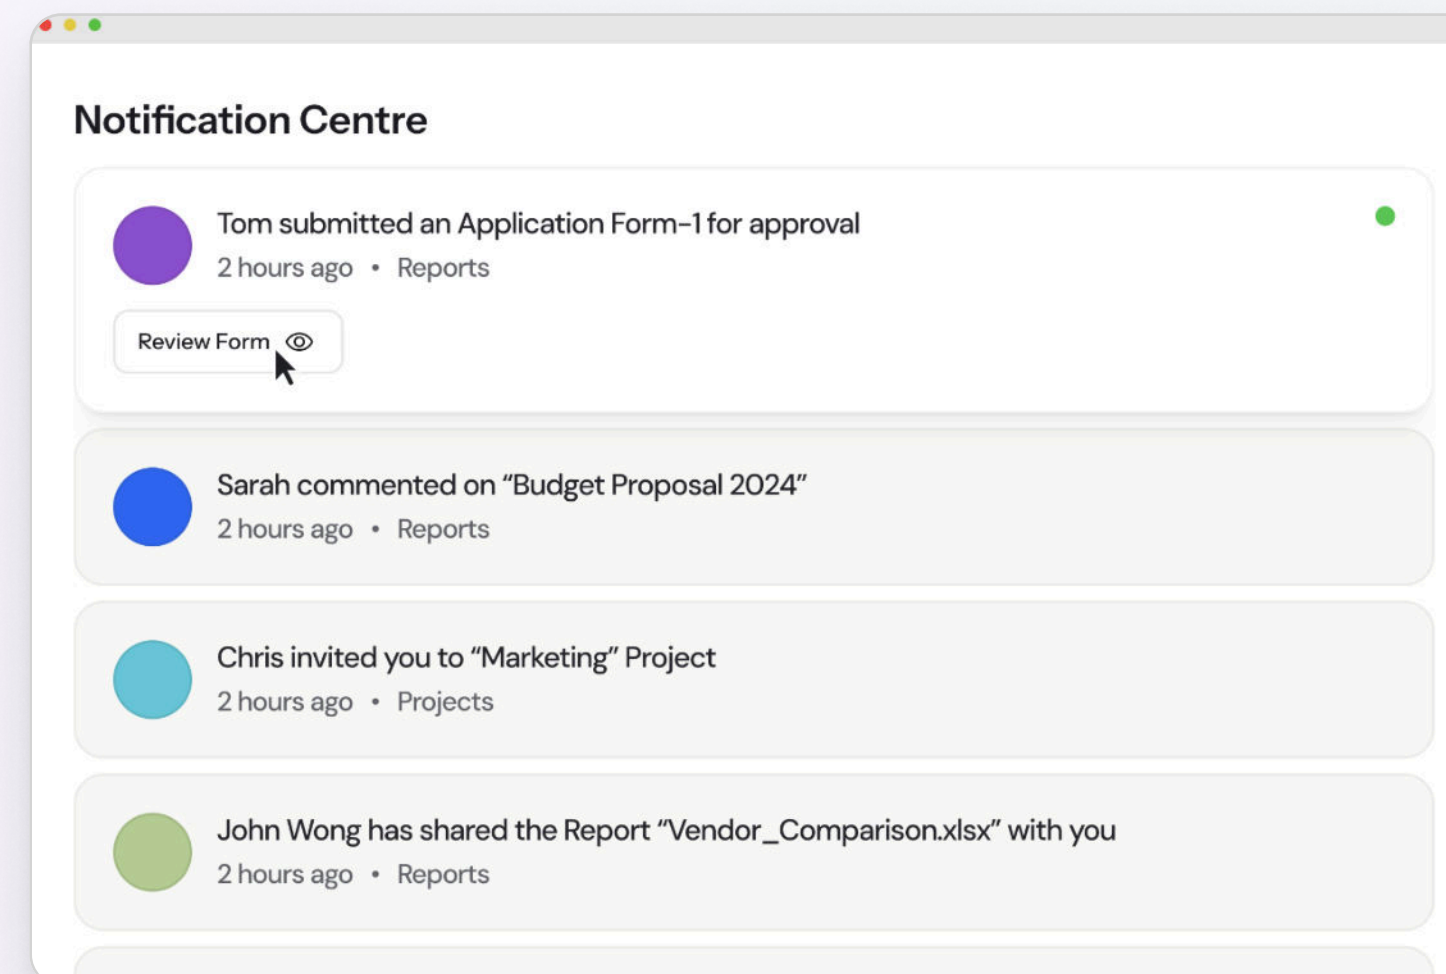

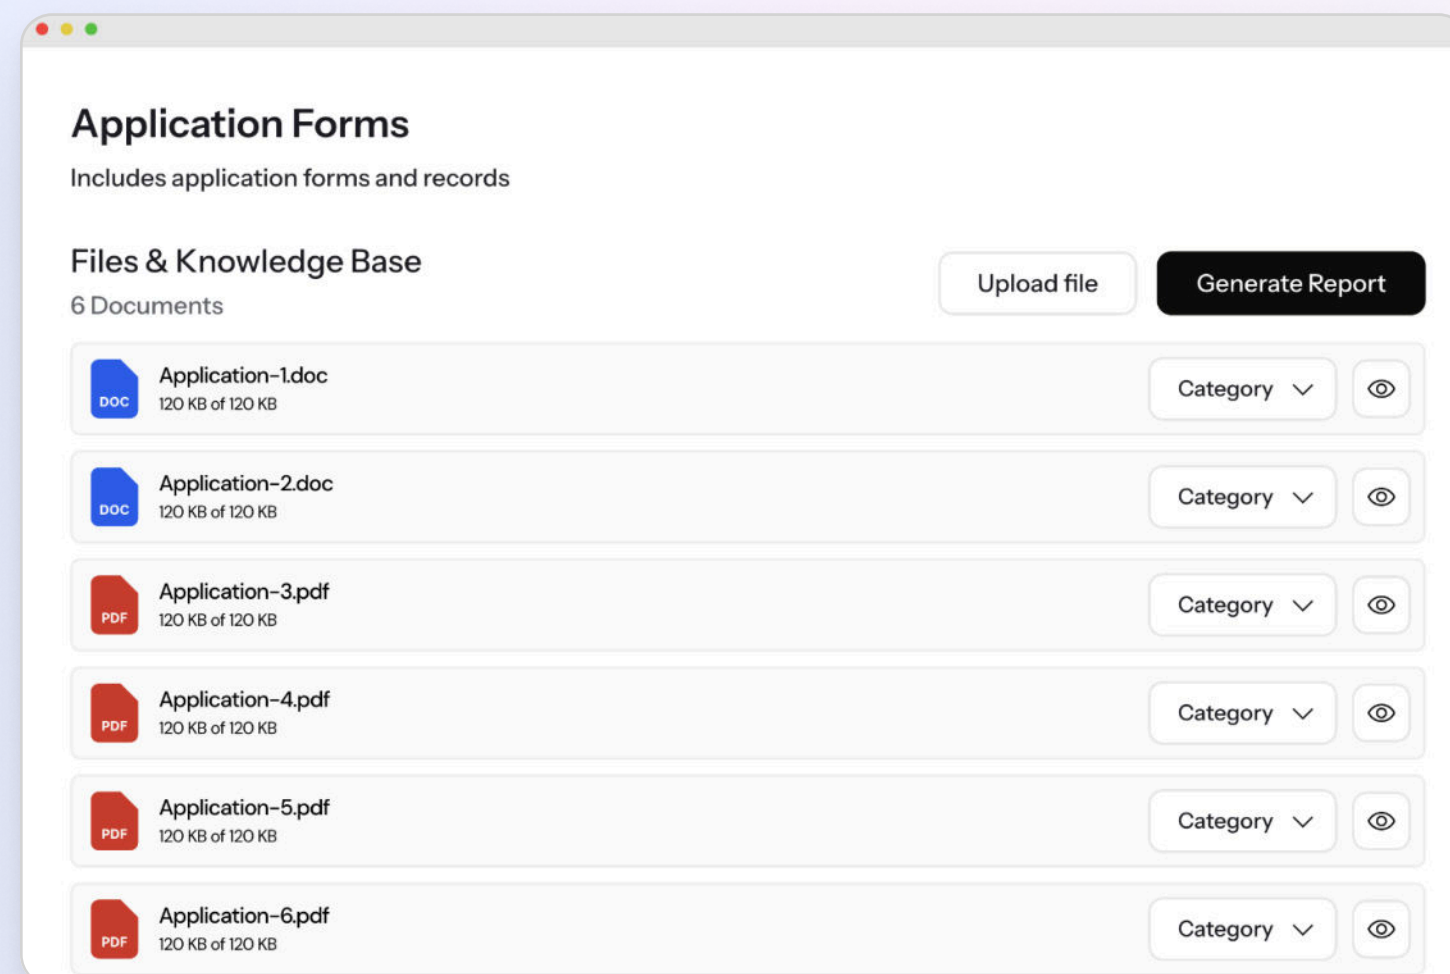

Your AI Knowledge Agent that Makes Your Life Easier.

Introduction: What is Licensing & Application Processing AI?

- Automates the entire workflow for **government licensing and application forms, from submission to approval**
- **Instantly extracts and validates data from digital or scanned forms**, including handwritten entries, using advanced OCR technology
- Automatically **routes applications to the right officers and notifies approvers** based on form type and department
- **Generates acknowledgements and next-step documents**, reducing manual workload and turnaround time

Alluvia.ai

Key Features: How it Works?

Step 1: Upload & Extract

- Upload digital or scanned application forms (including handwritten ones)
- Alluvia instantly extracts and validates key fields using OCR and AI

Step 2: Route & Notify

- AI automatically routes each form to the appropriate officer or department based on type
- Notifies approvers and flags missing information or potential risks for review

Step 3: Approve & Generate

- Officers review and approve applications with AI-suggested considerations
- System auto-generates acknowledgements and next-step documents for applicants

Alluvia.ai

Benefits: Why Choose Us?

Eliminates Repetitive Manual Tasks

- Automates data extraction, validation, routing, and notifications

Accelerates Processing Times

- Ensures faster review and approval of high-volume applications

Enhances Accuracy and Compliance

- Reduces human error and flags incomplete or risky submissions

Improves Transparency and Service

- Provides timely updates and clear next steps for both officers and applicants
