# Alluvia.ai

## Data Agent that Helps you from Data to Charts and Insights
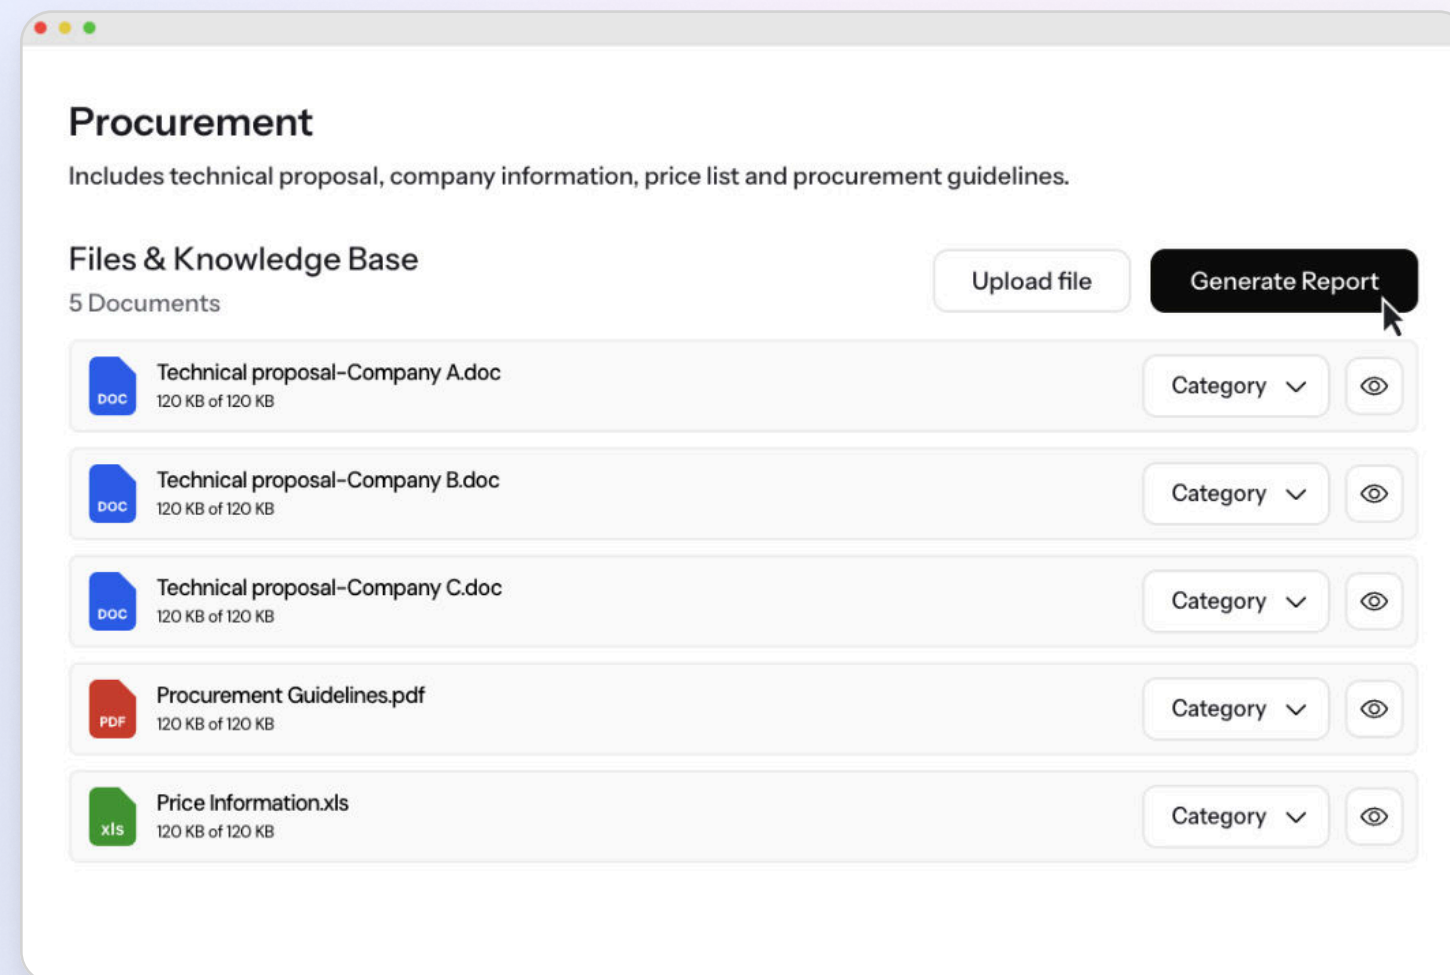

**Your AI Knowledge Agent that Makes Your Life Easier.**
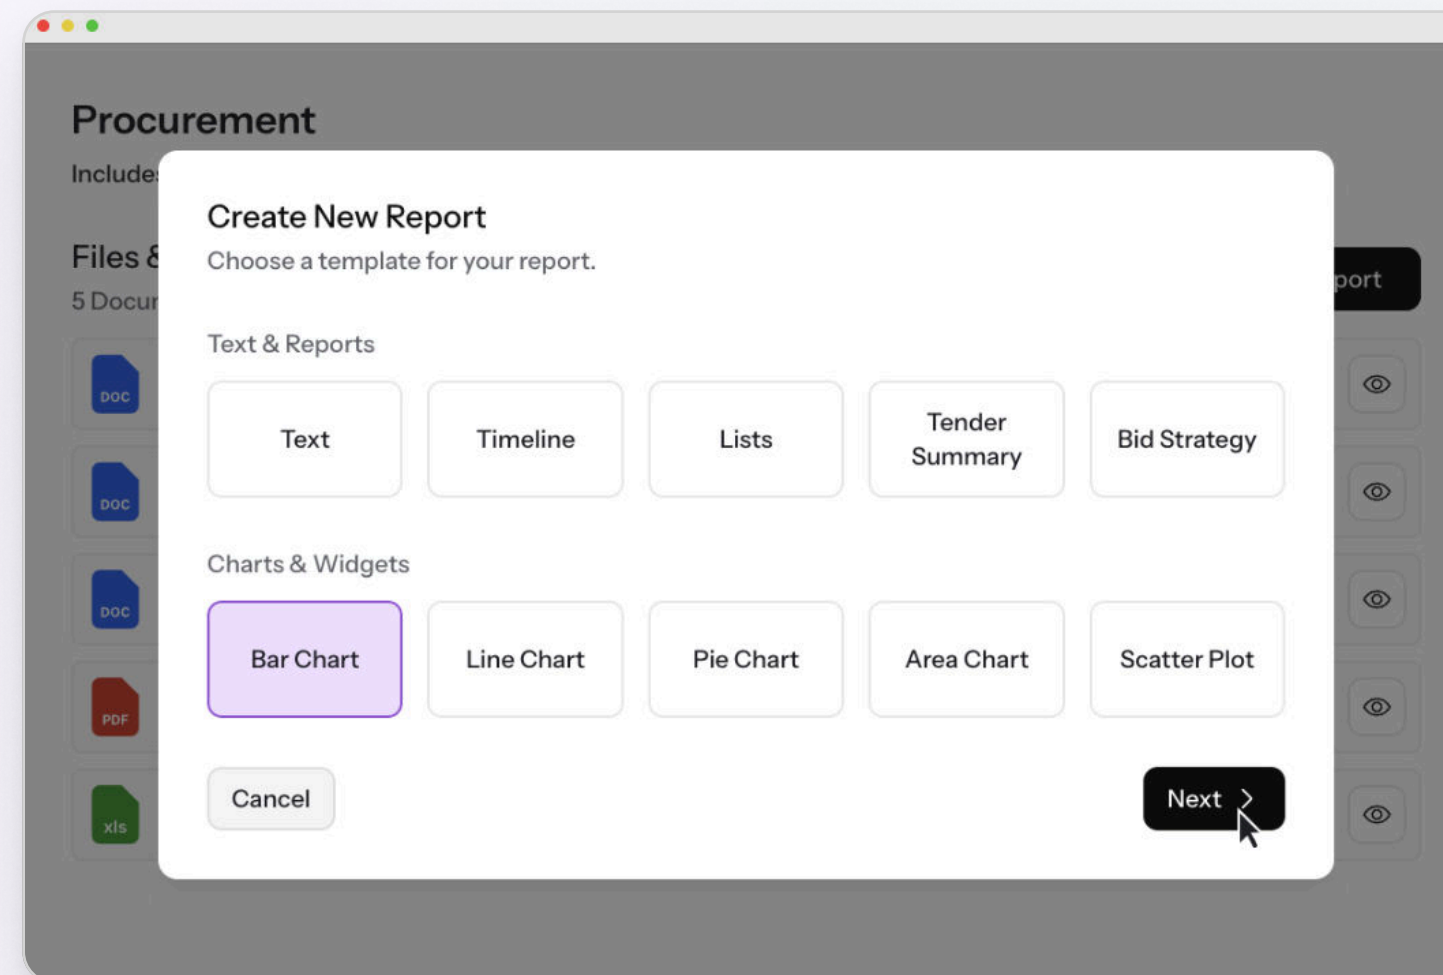

# Introduction: What is Alluvia's Data Agent?

- Effortless creation of **visual data reports (bar, line, pie, area, scatter charts)** from your datasets
- **Pre-set and customizable prompts for government-**specific analyses and reporting
- **Quick comparison** of proposals, project distributions, and key metrics for **faster, clearer decision-making**
- **Export charts and reports** as documents, images, or CSVs for streamlined sharing and collaboration
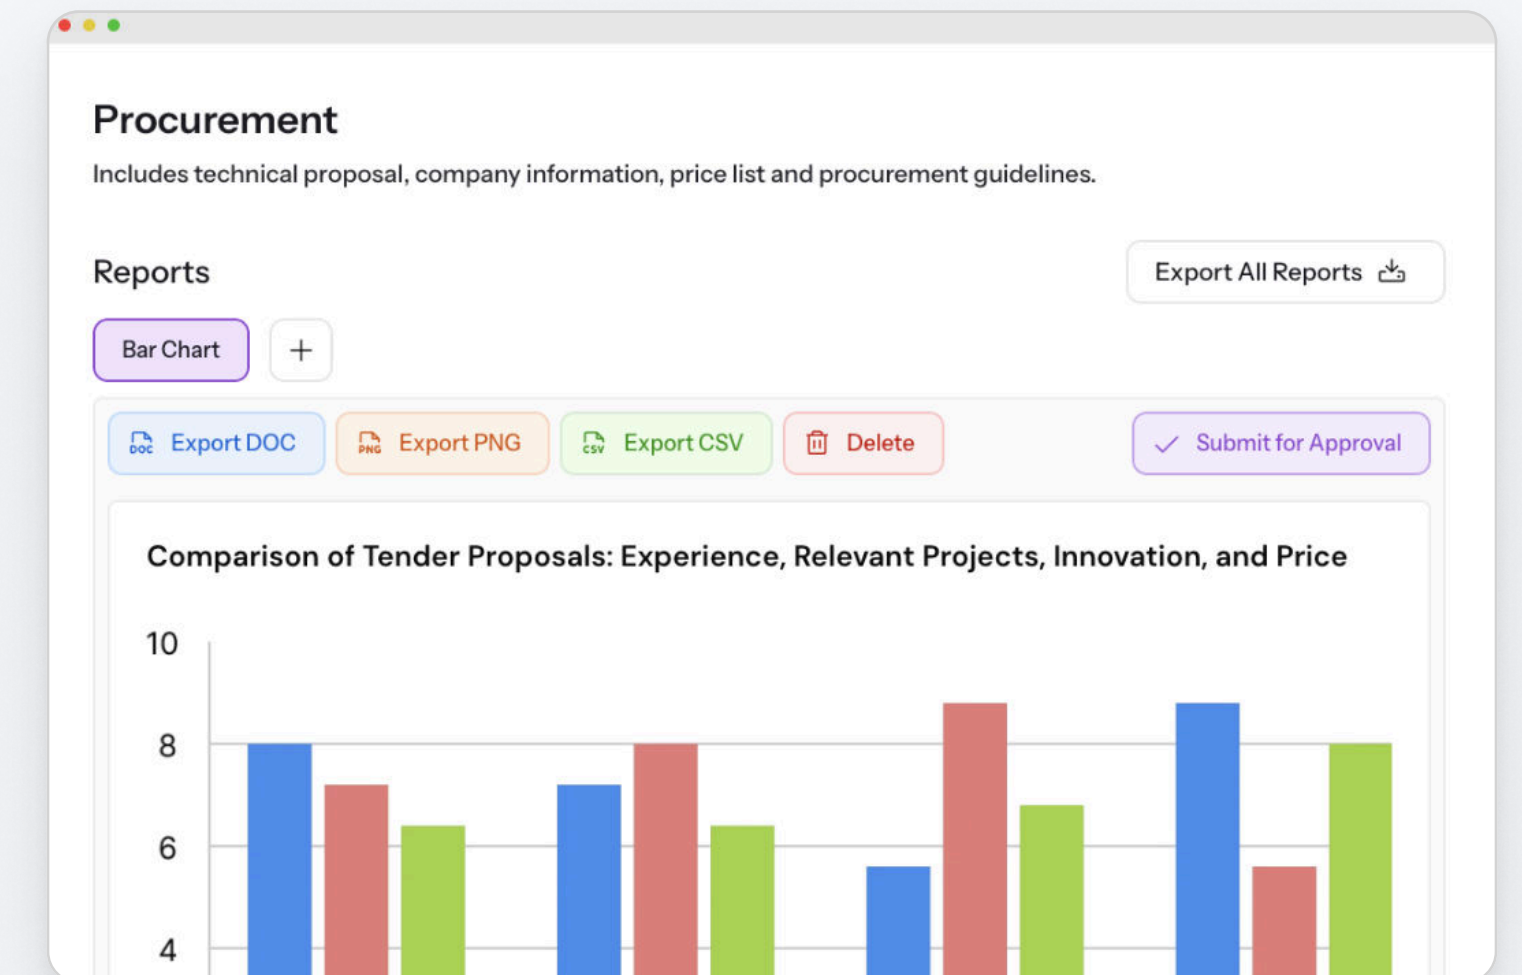

# Key Features: How it Works?

## Step 1: Upload & Organize

- Drag and drop your dataset (Excel, CSV) into Alluvia
- Instantly auto-generates a dashboard, transforming chaotic spreadsheets into clear visuals
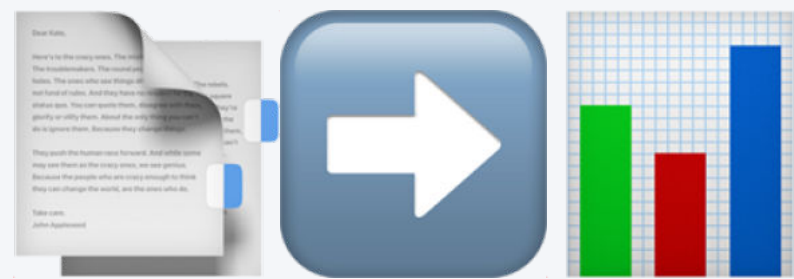

## Step 2: Generate & Customize

- Choose from a variety of chart types, including Bar chart, Line chart, Pie chart, Scatter chart
- Use pre-set or custom prompts tailored to your analysis needs

## Step 3: Analyze, Export & Collaborate

- Instantly answer questions with the data chatbot, referencing the original dataset side-by-side
- Export charts and reports in multiple formats for stakeholder sharing and transparent reporting

# Benefits: Why Choose Us?

### Transforms Overwhelming Data

- Converts complex, chaotic spreadsheets into clear, actionable charts and insights

### Saves Time and Effort

- No manual chart creation—auto-generated dashboards and reports in seconds

### Supports Transparent, Collaborative Analysis

- Easy sharing and side-by-side data view for team decision-making

### Empowers Better Planning

- Instantly reveals patterns, trends, and comparisons for smarter, data-driven government actions
