# Challenges for Funding Administration

## 1 Manual Vetting Process

Rely Heavily on **Manual Review** and **time consuming validation process**

## 2 Quality

**Multiple sources** of vetting rules and guidelines; and knowledge management challenge

## CHALLENGES

## 3 Efficiency

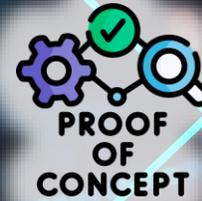

Increase in number of applications and backlog, need to speed up in vetting process

*\*AI generated Image*

# How we Tackle the Challenges

## Challenges

Adapting to Evolving  
AI Models and  
Security

Significance of the **Proof  
of Concept** Stage

Resistant to Change

Top Management's  
direction, commitment  
and support

Time and effort  
commitment for  
quality outcome

Implement  
Comprehensive **Quality  
Assurance**

# First Ever Patented Agentic AI Solution for Government Funding - PistaChio

Developing Comprehensive and Secure  
AI Infrastructure

RAG Chatbot
