THE WAY FORWARD

Workflow Automation

01

Start Small. Scale Fast.

Pick one process.

One pain point.

One high-volume, repetitive task.

Automate it.

Measure it.

Learn from it. Then Scale it.

THE WAY FORWARD

Workflow Automation

02

Human + AI, Not Human vs. AI.

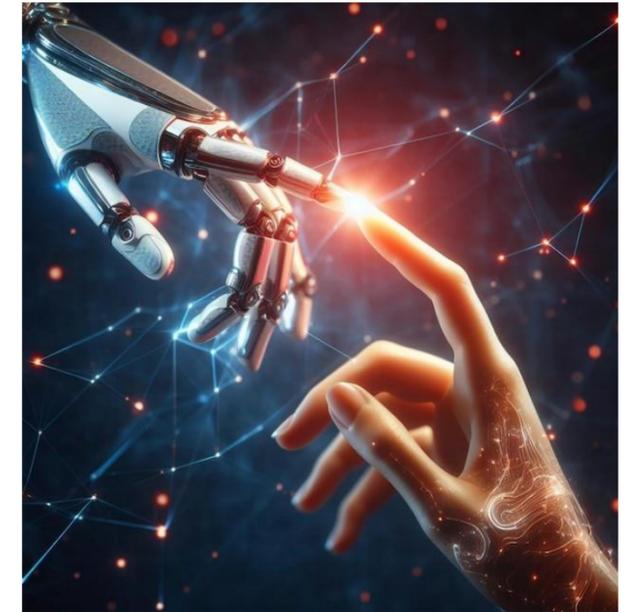

AI handles the routine.
Humans handle the exceptional.

AI processes the request.
Humans make the judgment calls.

This is amplification.
This is partnership.

THE WAY FORWARD

Workflow Automation

03

Build for Trust.

Transparency in algorithms.
Accountability in decisions.
Privacy by design.

Citizens must trust the system.
And that trust is earned—through action.
